

Wood screw with internal thread **Torab® P**

Advantages

- Wood screw with internal thread M6 or M8 for e.g. threaded rods; no further adaptors necessary
- Almost 50% less installation time necessary compared to alternative methods
- Double thread for quick screwing in
- Perfect solution when combined with e.g. multi-purpose plug MZK, especially for perforated bricks, boards, etc.

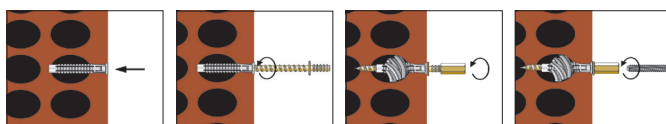

Suitable building materials

Very suitable

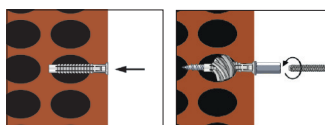

- Wood
- Nylon plugs

Mounting

Alternative method: 15 seconds

Torab® P : 8 seconds

Torab® P, zinc plated
